Ground Equipment Reset Playbook

March 2, 2012
Version 20120302

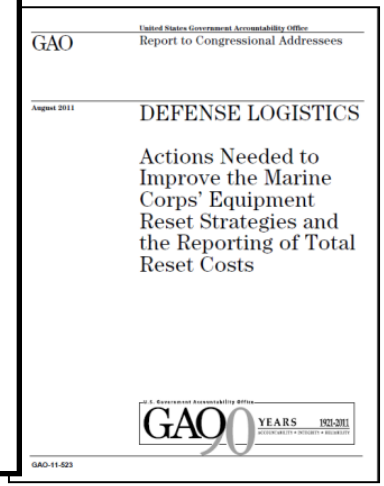
OEF Reset actions informed by:

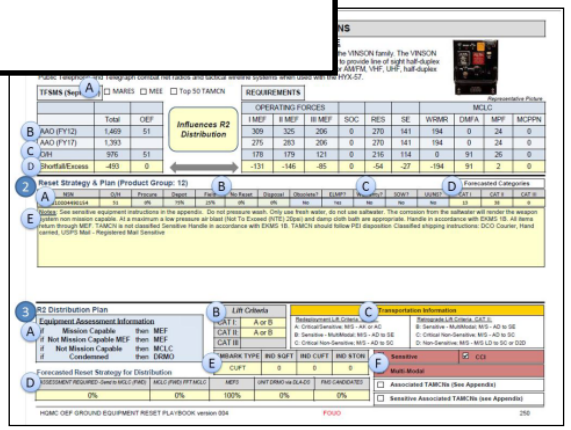
FOR OFFICIAL USE ONLY

Drawdown, Retrograde, and Redeployment of Operation Iraqi Freedom Forces:

Logistics Throughput and Capacity Drawdown

17 February 2010





Reset Defined

Actions taken to restore unit equipment to a desired level of combat capability commensurate with the unit's future mission.

There are three components to reset:

- **Repair** – The restoration of an item to serviceable condition through correction of a specific failure or unserviceable condition.
- **Recapitalization** – Extending the equipment's useful life by returning it to near zero mile/zero hour condition with either original performance specifications or upgraded performance specifications.
- **Replacement** – Acquisition of new equipment to replace battle losses, washouts, obsolete equipment, and equipment deployed and left in theater but needed for critical missions.
